

Student Engagement

We provide the ecosystem for our students to excel beyond the classroom by infusing opportunities to cultivate an entrepreneurial mindset through collaborative innovation and new paradigms within a diversely talented global cohort of MBA students.

As an inclusive institution, we welcome our students' families to our campus and encourage social cohesion amongst the KAEC community.

We pride ourselves in collaborating with the MBA Graduate Student Council (GSC) to govern student led clubs and organize various skills enhancing platforms for our students, through:

- Entrepreneur Speaker Series
- Soft Skills Workshops
- Motivational Documentary Sessions
- Student Speaker Events
- Conferences and Professional Events
- Learning Excursions
- Varsity Competitions

Career Development Office

The Career Development Office is committed to bringing together students and employers to develop a robust network and create lasting relationships that benefit all stakeholders.

It helps students to take full advantage of these professional opportunities and support recruiters to identify talent.

We design a career development program in a framework that helps students develop planning strategies to shape their future and meet their career goals. We also provide support and advice on how to turn career aspirations into personal branding, by developing unique personal profiles, creating consistent online presence, and building effective networks.

A range of career activities are scheduled throughout the academic year such as:

- | | | | |
|------------------------|-------------------|---------------------|------------------------|
| Résumé Critique Nights | Career Day | Mini Flash Cases | Career Conversations |
| Employer Site Visits | Recruiters Panels | Industry Spotlights | Business Insights Tour |

Take the next step
Unlock your Potential

At MBSC, we invest in the leadership potential of students, throughout their journey with us and beyond. We continuously support their holistic development, by equipping our students to become insightful leaders and build a strong community, through our Student Engagement and Career Development offices.
